Medical and Surgical Retina

Nadia Waheed, MD
Medical and Surgical Retina

GUEST FACULTY

Julia A. Haller, MD
Ophthalmologist-in-Chief, Wills Eye Health System, Philadelphia, PA

Dennis P. Han, MD
Jack A. and Elaine D. Klieger Professor of Ophthalmology
Director, Vitreoretinal Section, Medical College of Wisconsin, Milwaukee, WI

DESCRIPTION & OBJECTIVES

This program for comprehensive and subspecialty ophthalmologists will review in great depth the posterior segment complications of anterior segment surgery including:

Cystoid macular edema, retinal detachment, endophthalmitis, antibiotic toxicity, progression of diabetic retinopathy, subluxation, and dislocation of crystalline lens and intraocular lens, operating microscope induced maculopathy, suprachoroidal hemorrhage and others. The course faculty will place particular emphasis on discussing the treatment and prevention of these complications.

The course will emphasize direct audience participation and panel discussion that incorporates the encountered clinical programs.

At the conclusion of this course, participants will be able to:

- 1 Identify retinal disease that alters the risk-benefit ratio for refractive surgery.
- 2 Examine the risk factors for endophthalmitis, prophylaxis and management strategies.
- 3 Describe preferred management approaches for cataract surgery patients with diabetic retinopathy or age-related macular degeneration.
- 4 Recognize the spectrum of posterior segment complications of anterior segment surgery.

Target Audience

Targeted for comprehensive and subspecialty ophthalmologists.

PROGRAM

8:30 am	Registration and Continental Breakfast
8:55 am	Welcome and Introductions. Hilel Lewis, MD Meeting Overview. Andrew P. Schachat, MD
9:00 am	Endophthalmitis Prophylaxis — Is There Guiding Evidence? Nadia Waheed, MD
9:15 am	Postoperative Inflammation — Differential Diagnosis and Management. Dennis P. Han, MD
9:30 am	Retinal Detachment After Cataract Surgery — What is the Risk? Andrew P. Schachat, MD
9:45 am	Prophylaxis Prior to LASIK or Cataract Surgery Hilel Lewis, MD
10:00 am	Cataract Surgery in Eyes with Prior Retinal Detachment. Julia A. Haller, MD
10:15 am	Suprachoroidal Hemorrhage — Causes, Prevention and Management. Peter K. Kaiser, MD
10:30 am	Break
11:00 am	Cataract Surgery and Diabetic Retinopathy Dennis P. Han, MD
11:15 am	Cataract Surgery and AMD. Jonathan E. Sears, MD
11:30 am	Management of Pseudophakic Cystoid Macular Edema. Rishi P. Singh, MD
11:45 am	Management of Lens Dislocation During Cataract Surgery. Hilel Lewis, MD
12:00 pm	Secondary IOL's and Subluxed IOL's —Tips and Tricks. Julia A. Haller, MD
12:15 pm	Diagnosis and Management of Cyclodialysis Clefts. Jonathan Sears, MD
12:30 pm	Adjourn

INFORMATION

Disclaimer

The information in this educational activity is provided for general medical education purposes only and is not meant to substitute for the independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition. The viewpoints expressed in this CME activity are those of the faculty/authors. They do not represent an endorsement by The Cleveland Clinic Foundation.
