Miami CME Winter Series

OVERVIEW

Dr. Amir Jaffer and Dr. Franklin A. Michota, Jr., the founding Summit directors, in collaboration with Dr. David Hepner, will direct the upcoming 4th Perioperative Medicine Summit in its new home in Miami, Florida. The Cleveland Clinic, the Summit's originator in 2006, is co-sponsoring the event this year with its new parent, the University of Miami Miller School of Medicine and the University of Miami Health System, UHealth, in collaboration with the **Society for Perioperative Assessment and Quality Improvement (SPAQI)**.

Our goal is to enable clinicians who are actively engaged in perioperative medical care to incorporate the latest findings from clinical research into their practices so that they can improve the quality and safety of their medical care.

We will use evidence-based lectures supplemented by clinical cases and combine them with an Audience Response System for a detailed exchange of information among faculty and attendees. In addition, clinical and lab research, innovations, and clinical vignettes related to perioperative medicine will be selected for presentation.

TARGET AUDIENCE

Internists, hospitalists, family practitioners, anesthesiologists, physician assistants, certified nurse anesthetists, nurse practitioners and allied health professionals engaged in management of the perioperative patient.

OBJECTIVES

At the completion of this summit, the attendee will be able to:

- Outline the different elements of the preoperative evaluation and the communication techniques for the medical consultant.
- Assess perioperative risk by applying the patient's history, physical exam, and laboratory tests to evidence-based clinical predication rules and guidelines for cardiovascular disease, pulmonary disease, thromboembolism, and delirium.
- Define disease processes relevant to perioperative care.
- Implement evidence-based therapies for perioperative care.
- Integrate cost-effective perioperative testing in ambulatory and hospitalized patients.
- Manage common postoperative medical complications.
- Incorporate the latest findings from perioperative clinical research into his or her office and/or hospital practice.

ACCREDITATION

The University of Miami Leonard M. Miller School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

CREDIT DESIGNATION

The University of Miami Leonard M. Miller School of Medicine designates this educational activity for a maximum of **20.25 AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

DISCLOSURE AND CONFLICT OF INTEREST RESOLUTION

All conflicts of interest of any individual(s) in a position to control the content of this CME activity will be identified and resolved prior to this educational activity being provided. Disclosure about provider and faculty relationships, or the lack thereof, will be provided to learners.

SERVICES FOR THE DISABLED

Please contact the Division of CME prior to January 12, 2009 should you have any special needs that may require additional assistance. A conference staff member will contact you to discuss these special requirements.

REGISTRATION CANCELLATION POLICY

Refunds will be made only if written notice of cancellation is received prior to January 3, 2009. A \$75 fee is charged for all refunds. After this date, no refunds will be made. In cases where a course is cancelled due to insufficient registrations, a full tuition refund will be made.

The hotel extends the group rate 3 days pre and post conference dates based on availability. After January 14, 2009, reservation requests will be considered on a space-available basis.

RESERVATIONS:

Call 1-800-319-5354 and reference Perioperative Medicine Summit 2009.

Ocean View from The Eden Roc

Individual guestroom reservations may also be made on the hotel's reservations page: <http://marriott.com/miasr>.

The unique group code, UMSUMSA, will automatically appear. All reservations should be received by the Hotel no later than January 14, 2009. All individual reservations must be accompanied by a first night room deposit or guaranteed with a major credit card. Hotel will not hold any reservations unless secured by one of the above methods.

CALL FOR ABSTRACTS

For abstract guidelines and submission go to: <http://www.med.miami.edu/med/education/cme/x39.xml>. Abstracts are invited for presentation at the Perioperative Medicine Summit being held in conjunction with the Society for Perioperative Medicine and Quality Improvement (SPAQI).

DEADLINE

Abstract submissions must be received no later than December 1, 2008. Submitting authors will be notified of acceptance or rejection by December 15, 2008.

SUBMISSION CATEGORIES

We welcome abstracts in the following categories:

RESEARCH IN PERIOPERATIVE MEDICINE

Submissions can report clinical and/or laboratory-based research or consist of a systematic review of a clinical problem. Research abstracts concerned with efficiency, cost, or medical decision-making are also encouraged.

Visit www.cme.med.miami.edu for more detailed information and instruction.

INNOVATIONS IN PERIOPERATIVE MEDICINE

Authors who wish to describe an innovative program in perioperative medicine are encouraged to submit to this category. Innovations will primarily be descriptive, but they may also include preliminary data. A more rigorous evaluation of an innovative program should be submitted as a research abstract, rather than an innovation. For example, an innovation may describe a novel strategy for dissemination of practice guidelines, whereas a research abstract may analyze its impact on length of stay or post-operative morbidity or mortality.

PERIOPERATIVE CLINICAL VIGNETTES

A clinical vignette is a report of one or more cases that illustrates a new disease entity or prominent or unusual clinical feature of an established disease, highlights an area of clinical controversy in perioperative medicine, or illustrates a unique patient safety issue. It may include a summary of pertinent patient history, physical findings, laboratory data, or management description. It should be clear from the discussion of the abstract why the vignettes are appropriate for a perioperative medicine competition (versus general internal medicine, hospital medicine, or anesthesiology). Clinical vignettes will be judged on originality, organization, writing clarity, and relevance to perioperative medicine.
