

# Thyroid Expo 2010

A Multidisciplinary Symposium on Thyroid Diseases and Thyroid Cancer

Saturday, January 23, 2010

This one-day course will highlight recent advances in the management of thyroid disorders and thyroid cancer.

The year 2009 witnessed the publication of new guidelines in the treatment of thyroid nodules, differentiated thyroid cancer and medullary thyroid cancer. More so than ever before, innovations of new surgical technologies, thyroid cancer diagnostic tests, and new therapies for thyroid cancer are influencing patient care options. This course is designed to address the key concepts of these advancements during lectures, panel discussions, and operative technique videos.
