

21st Century Treatment of

Heart Failure:

Synchronizing Surgical and Medical Therapies for Better Outcomes

October 21-22, 2010

InterContinental Hotel &
Bank of America Conference Center
Cleveland, Ohio

www.ccfcmec.org/heartfailure10

In cooperation with
Cleveland Clinic Kaufman Center
for Heart Failure
and the American Association for
Thoracic Surgery

This activity has been approved for
AMA PRA Category 1 Credit™

Research | Education | Patient Care

Cleveland Clinic

The Kaufman Center for Heart Failure at Cleveland Clinic and the American Association for Thoracic Surgery (AATS) are pleased to provide an educational event for all health care providers who specialize in the treatment of heart failure; **21st Century Treatment of Heart Failure: Synchronizing Surgical and Medical Therapies for Better Outcomes.** Two of America's leading cardiovascular specialty organizations have come together to address the growing problem of heart failure and together they offer the most advanced review of the current and future medical and surgical treatments for this disease

21st Century Treatment of Heart Failure will feature presentations by leading experts in cardiovascular medicine and cardiac surgery.

Topics will Include:

- Insights into Controversial Medical and Surgical Treatments
- Strategies for Slowing Heart Failure Progression with the Use of CRT-D
- Quality Metrics and their Impact on Cardiovascular Disease Practice
- Management of Acute Myocardial Infarction and Shock
- Surgical Management of Ischemic Cardiomyopathy
- Cardio-Renal Interactions
- Patient Selection for Mechanical Circulatory Support
- Long Term Management of the Patient on Mechanical Circulatory Support
- Contemporary Experience with New Pumps

Program Objectives

Therapies for heart failure are continuously evolving. This educational event will provide an opportunity to hear the latest reports and clinical trials on left ventricular assist device technologies, the current medical and surgical therapies for the heart failure population, expanding indications for electrical therapies, new insights into the cardio renal syndrome, and importantly, the increasing importance of quality and outcomes data in the care of this population

Past Attendee Profile

The 2008 Heart Failure conference had 522 attendees representing 34 states and 19 countries in the following fields:

- Cardiology
- Cardiovascular Surgery
- Internal Medicine
- Cardiovascular Nursing
- Perfusion
- Pharmacy
- Research

Participant Learning Objectives

- Discuss critical decision making in the role of ICD's and biventricular pacing in this population
- Describe the management of acute myocardial infarction and cardiogenic shock
- Define the medical and surgical options available to promote reverse cardiac remodeling in heart failure
- Utilize quality metrics to improve outcomes in the heart failure population
- Discuss the role of the cardio-renal interaction in end stage heart failure
- Describe recent clinical trial data on the management of advanced heart failure with device therapy and how these data should be incorporated into clinical practice
- Review patient selection criteria for the use of implantable LVADS for heart failure treatment

7:55 am Welcome and Announcement

Session I: Contemporary Issues in Heart Failure Management

Moderators: Randall C. Starling, MD, MPH and Nicholas G. Smedira, MD

- 8:00 am Quality and Outcomes Data in Heart Failure
Clyde W. Yancy, MD
- 8:20 am Expanding Indications for CRT: Putting MADIT-CRT into the Context of Heart Failure Practice
Bruce D. Lindsay, MD
- 8:40 am Risk Stratification in Heart Failure Using Novel Imaging Techniques
Thomas Marwick, MD, PhD
- 9:00 am The Evolution of MCS over the Past 30 Years
Walter E. Pae, MD
- 9:20 am Are We Ready for LVADS in Class III Patients?
Joseph G. Rogers, MD
- 9:40 am Panel Discussion
- 10:00 - 10:30 am Break

Session II: Contemporary Issues in Heart Failure Management

Moderators: Christine S. Moravec, PhD and Robert Hobbs, MD

- 10:30 am Registries and Guidelines: Have They Helped Us Provide Better Patient Care in the Real World?
Mariell L. Jessup, MD
- 10:50 am Addressing Anemia in Heart Failure: What Have We Learned?
W. H. Wilson Tang, MD
- 11:10 am New Insights into the Cardiorenal Syndrome
Maria Rosa Costanzo, MD
- 11:30 am Vasodilators in the Setting of ADHF
John R. Teerlink, MD
- 11:50 - 12:10 pm Panel Discussion
- 12:10 - 1:15 pm Lunch

Session III: Kaufman Center Award and Lecture

Introduced by Randall C. Starling, MD, MPH

- 1:15 - 1:45 pm **James B. Young, MD**

Session IV: Clinical Trials of Drugs and Devices for Heart Failure

Moderators: Mariell L. Jessup, MD and James B. Young, MD

- 1:45 pm Will Clinical Site Research Survive in the U.S. and Can We Afford It?
Robert M. Califf, MD
- 2:05 pm The STICH Trial: What Went Wrong, What Went Right?
John V. Conte, MD
- 2:25 pm Are the Patients We Study Those We Treat?
Clyde W. Yancy, MD
- 2:45 pm The Economics of Developing New Drugs and Devices: Is the Pipeline for New Drugs "Drying Up"?
Steven Nissen, MD
- 3:05 pm Harmonization of LVAD Trials Around the World
Eric Chen, MS
- 3:25 - 3:45 pm Panel Discussion

Session V:

Update on the Medical and Surgical Management of Ischemic Cardiomyopathy

Moderator: Soon J. Park, MD

- 3:45 pm State of the Art Cardiac Regeneration with Stem Cells
Marc S. Penn, MD, PhD
- 4:05 pm Ventricular Reconstruction: Indications, Physiologic Impact, Surgical Techniques, and Outcomes
Robert A. E. Dion, MD
- 4:25 pm The Treatment of Ischemic Mitral Valve Disease:
Imaging
Robert A. Levine, MD
Repair
Tomislav Mihaljevic, MD
- 5:00 - 5:20 pm Panel Discussion
- 5:30 pm Adjourn

Session VI: MCS and Transplant: Patient Selection*Moderators: David O. Taylor, MD and James B. Young, MD*

- 8:00 am Where is the Data That Obesity is a Contraindication to Heart Transplant and MCS?
David O. Taylor, MD
- 8:20 am Gastric Bypass Surgery for Heart Failure: The Impact of Weight Loss on CV Structure and Function
Philip R. Schauer, MD
- 8:40 am Strategies for LVAD Therapy: Does BTT, BTC and DT Impact Management and Outcomes?
Benjamin C. Sun, MD
- 9:00 am Pre – Operative Predictors of Post LVAD Mortality
Leslie W. Miller, MD
- 9:20 am A Good LVAD is Better Than a Bad Transplant!
George M. Wieselthaler, MD
- 9:40 - 10:00 am Panel Discussion
- 10:00 - 10:20 am Break

Session VII: Management of the Patient on MCS in the Continuum of Care*Moderators: Nicholas G. Smedira, MD and George M. Wieselthaler, MD*

- 10:20 am Management of Acute Decompensated Heart Failure and Shock (Point/Counterpoint)

Back to the Future: ECMO Should be the First Choice
Pascal N. Leprince MD, PhD
- Avoid an Oxygenator At All Costs: Tandem Heart or Impella
Edward Soltesz, MD
- 10:40 am Managing RV Failure (Point/Counterpoint)

Temporary RV Support is the Best Strategy
Steven W. Boyce, MD
- Early Planned BiV Support Results in Improved Outcomes
Michael A. Acker, MD

- 11:10 am Eliminate Drive-Line Infection
Nicholas G. Smedira, MD
- 11:25 am Neurological Events: Patient? Device? Management?
Maria Mountis, DO
- 11:40 am Are ICDs Beneficial in the LVAD Population
Daniel J. Cantillon, MD
- 11:55 am Outpatient Management of the “Destination” Patient: Are Focused Clinics and Telemanagement the Answer?
Robert L. Kormos, MD
- 12:10 am Utilizing Best Practices to Reduce Readmissions in the LVAD Population
Laura D. Damme, RN, MPH
- 12:25 - 12:45 pm Panel Discussion
- 12:45 pm Lunch

Session VIII: The Present and Future of Innovation in MCS*Moderator: Robert L. Kormos, MD*

- 2:00 pm TAH

Why I Love It
Jack G. Copeland, MD
- Why I Hate It
Gonzalo Gonzalez-Stawinski, MD
- 2:40 pm Update on New Technology: Duraheart, Terumo, and Heartware
Aly El-Banayosy, MD
- 3:00 pm Update on New Technology: Tandem Heart, Impella, Circulite
William E. “Billy” Cohn, MD
- 3:20 pm Maximizing Reimbursement for Innovation
Robin Roberts Bostic
- 3:40 pm Will MCS Replace Heart Transplant in this Decade?
Leonard Golding, MD
- 4:00 - 4:20 pm Panel Discussion
- 4:30 pm Adjourn

Abstract Submission

The Heart-Failure Summit invites you to submit abstracts of original investigation for consideration in the Poster Session. Abstracts previously presented at other national or international meetings will be accepted. Accepted abstracts will be printed in the syllabus. **The deadline for submission is September 20, 2010.**

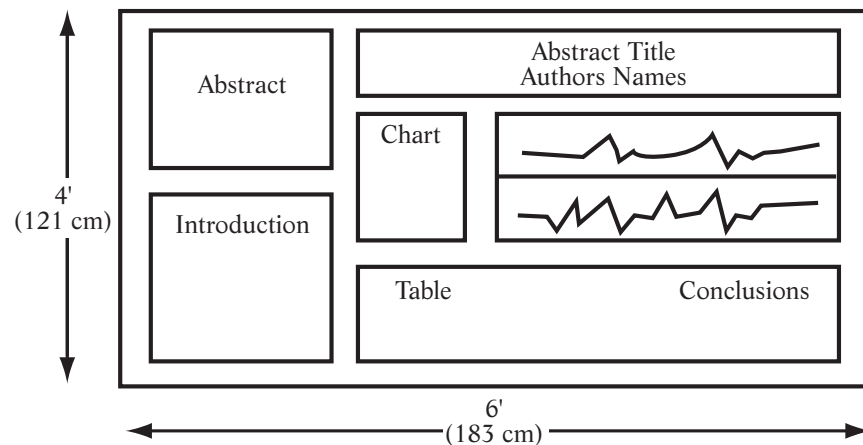

Submission Instructions

Abstracts must be submitted by e-mail to mavi@jamiebelkin.com.

The one page abstract should be submitted as a Microsoft Word attachment using no smaller than an 11pt font size. There is no limit to the number of abstracts a presenter can submit.

Style Instructions

- Figures, graphs and simple tables are allowed
- Use of standard abbreviations is desirable; place unusual abbreviations in parentheses after first use of the full term

Poster Presentations

If your abstract is accepted, the presenter will be required to complete a Financial Relationship Disclosure Form per the Accreditation Council for Continuing Medical Education's (ACCME) Standards for Commercial Support and CCF's CME Policy 05-01. Your acceptance notice will indicate your poster assignment number. Each poster board measures 4' high (121cm) and 6' wide (138cm); you must provide a copy of the abstract, typed in large type for posting on the board. Illustrations must be readable from distances of at least three feet. Use lightweight poster board only; heavy board is difficult to secure. Push pins will be available on-site.

Faculty Disclosure Information

The Cleveland Clinic Foundation Center for Continuing Education has implemented a policy to comply with the current Accreditation Council for Continuing Medical Education Standards for Commercial Support requiring resolution of all faculty conflicts of interest. Faculty declaring a relevant commercial interest will be identified in the activity syllabus.

Accreditation

The Cleveland Clinic Foundation Center for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Cleveland Clinic Foundation Center for Continuing Education designates this educational activity for a maximum of 14.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Participants claiming CME credit from this activity may submit the credit hours to the American Osteopathic Association Council on Continuing Medical Education for Category 2 credit.

Americans with Disabilities Act

The Cleveland Clinic Foundation Center for Continuing Education fully intends to comply with the legal requirements of the Americans with Disabilities Act. If you need assistance, please notify Mavi Golsmith at 216.932.3448 at least two weeks prior to the activity.

Grantor and Exhibiting Opportunities

For more information on grantor and exhibitor opportunities, please contact Ceca Sarkissian at 216.932.3448 or ceca@jamiebelkin.com.

For additional information on this course, please contact Mavi Golsmith at:

216.932.3448
mavi@jamiebelkin.com

Meeting Location

InterContinental Hotel & Bank of America Conference Center

9801 Carnegie Avenue
Cleveland, OH 44106
216.707.4100

Hotel Reservations

A block of rooms has been reserved at the InterContinental Hotel & Conference Center. To make a reservation, contact the hotel directly via phone or online at www.ichotelsgroup.com. Please mention the Heart Failure Summit (online code: JF2) to receive the special rate of \$189.00 plus tax per night.

Individual rooms must be canceled by 4:00 pm (Eastern time) on the day prior to the scheduled arrival date to avoid a no-show charge.

Self Parking

P2 Garage located at 2111 East 100th St. and Carnegie Avenue.
Rate: \$10 per day.

Ground Transportation

Taxi service is available from Cleveland Hopkins International Airport to the InterContinental Hotel. Valet parking is available at the hotel for an additional charge.
