Endoscopic Intramural Surgery: Insights & Tricks of the Trade

You Don’t Want to Miss This Activity. Limited slots available!

This symposium is designed to introduce the attendees to new and emerging techniques in endoscopic surgery within the gastrointestinal tract. This course will feature hot topics in diagnostic and therapeutic interventions in endoscopic intramural surgery by Cleveland Clinic world-renowned experts. The course includes an interactive hands-on skills lab for POEM, POP, ESD and Zenker's diverticulum.

Improve Your Knowledge To:
- Demonstrate effective techniques of therapeutic interventions to achieve optimal results, reduce complications, and improve overall patient outcomes
- Review advanced endoscopic management, practice guidelines, and expert opinions in therapeutic interventions within the gastrointestinal tract.
- Integrate the indications and techniques of endoscopic surgery and interventional management in treatment of patients with gastrointestinal tract disease

Who Should Attend?
This course is designed for health care providers practicing endoscopy including gastroenterologists, general surgeons, advanced endoscopists and trainees, nurses and technicians. This activity strives to produce significant knowledge gains that will, in turn, have positive effects on improving the quality of care for patients.
