About the Course
This national symposium will focus on providing an in-depth and up-to-date review of the multidisciplinary management of colorectal cancers.

Oncologists, surgeons, radiation oncologists, and nurses with an interest in the management of patients with colorectal cancer should attend this course.

Learning Objectives
As a result of attending the course, the participant will be able to:

• Determine ideal and most up-to-date neoadjuvant and adjuvant approaches to colorectal cancer.
• Discuss novel surgical approaches to rectal cancer.
• Discuss the increasing incidence of colorectal cancer in young patients and the unique aspects for this population.
• Discuss and manage common issues facing survivors of colorectal cancer.
