Pediatric and Congenital Heart Symposium
Spring 2017

Tuesday, March 7, 2017
9:00am to 2:45pm
Cleveland Clinic Bunts Auditorium
2045 E. 90th Street, TT Building
Cleveland, Ohio 44195

Join world-renowned pediatric cardiologists and cardiothoracic surgeons as they review a series of case presentations on the medical and surgical guidelines for children with Tetralogy of Fallot and Transposition of the Great Arteries. This symposium will review three case presentations with the indications for cardiac catheterization; managing arrhythmias; imaging; and surgical repair. There will be opportunities for discussion and questions and answers with the goal of improving patient outcomes and impacting the quality of care.

Keynote Speaker:
Glen Van Arsdell, MD
Head, Cardiovascular Surgery
The Hospital for Sick Children, Toronto, Canada
Professor and Chair, Cardiac Surgery
University of Toronto
CIT Chair in Cardiovascular Research

Co-Directors:
Hani Najm, MD
