About the Symposium

The Cleveland Clinic Children's Hospital for Rehabilitation is presenting our first Pediatric Rehabilitation Symposium in Beachwood, Ohio. The Symposium includes a wide variety of topics important to Pediatrics and Pain Rehabilitation across inpatient and outpatient settings. Research and treatment techniques pertinent for children, birth through adolescence, will be presented including a special focus on multi-disciplinary collaboration.

Target Audience

This symposium is directed towards practicing physicians, chiropractors, psychologists, physical therapists, occupational therapists, speech-language pathologists, athletic trainers, recreational therapists, nurse practitioners, physician assistants, nurses, social workers and other disciplines involved in pediatric rehabilitation.

Objectives

At the completion of this activity, the participant will be able to:

1. Describe rehabilitation intervention techniques and advanced practice guidelines for pediatric conditions, including neurological disorders, autism, chronic pain and orthopedic conditions.
2. Describe the rehabilitation process and long-term commitment from an interdisciplinary team.
3. Utilize published research in the field of pediatric rehabilitation relevant to torticollis, hemiplegia and gait abnormalities.
4. Define relevant and current treatment interventions in the field of pediatric pain rehabilitation and integrative medicine.
5. Review examples of successful treatment interventions, which can be applied in multiple pediatric settings to a variety of pediatric diagnoses.
