Spasticity Management in Motion:

Midwest Spasticity Conference 2009
and the Pediatric Spasticity Symposium

Saturday, October 3, 2009

The Bertram Inn & Conference Center • Aurora, OH

Overview

The symposium will highlight advances in spasticity management and techniques to enhance function and quality of life in individuals with spasticity. Emphasis will be placed on adult stroke and pediatric cerebral palsy, but the topics covered can be applied across neurological conditions. Case presentations will be used to illustrate the complexity of decision making and outcome measurement and to generate discussions with the audience. Specific issues, treatments and rehabilitation techniques will be presented via interactive breakout sessions.

Objectives

- Describe the pathophysiology and clinical presentation of spasticity
- Evaluate the consequences of spasticity on function and quality of life
- Design a comprehensive management plan for patients with spasticity
- Identify specialized interventions aimed at optimizing function in patients with spasticity

This activity has been approved for *AMA PRA Category 1 Credit™*.

Credit to be applied for with the OT section of the Ohio OTPTAT Board and the Ohio Physical Therapy Association. Approval is pending.
