Endoscopic Intramural Surgery/Third Space Endoscopy: Insights & Tricks of the Trade

**June 10–11, 2022**
Courtyard by Marriott University Circle
Case Western Reserve University
Surgical Training and Research Center
Cleveland, OH
COURSE DESCRIPTION
This symposium is designed to introduce the attendees to new and emerging techniques in Third Space Endoscopy/Endoscopic Intramural Surgery within the gastrointestinal tract. This course will feature hot topics in diagnostic and therapeutic interventions in Third Space Endoscopy/Endoscopic Intramural Surgery by Cleveland Clinic world-renowned experts. The course includes an interactive hands-on skills lab for POEM, POP (G-POEM), ESD and Zenker's diverticulum.

EDUCATIONAL OBJECTIVES
- Demonstrate effective techniques of therapeutic interventions to achieve optimal results, reduce complications, and improve overall patient outcomes.
- Review advanced endoscopic management, practice guidelines, and expert opinions in therapeutic interventions within the gastrointestinal tract.
- Integrate the indications and techniques of endoscopic surgery and interventional management in treatment of patients with gastrointestinal tract disease.

TARGET AUDIENCE
This course is designed for health care providers practicing endoscopy including gastroenterologists, general surgeons, advanced endoscopists and trainees, nurses and technicians. This activity strives to produce significant knowledge gains that will, in turn, have positive effects on improving the quality of care for patients.
