# BEYOND THE SCOPE

## GI Advances You Can't Miss

**Saturday,  
June 6, 2026**

Intercontinental Hotel &  
Conference Center  
Founder's Ballroom  
Cleveland, Ohio

Recognized by the  
**CROHN'S & COLITIS**  
FOUNDATION

### DESCRIPTION/OVERVIEW

This comprehensive program is designed for healthcare professionals seeking to deepen their expertise in the diagnosis and management of complex gastrointestinal conditions. Through evidence-based discussions, multidisciplinary perspectives, and practical case applications, participants will enhance their clinical decision-making and procedural skills across a range of GI disorders.

### FEATURED TOPICS

- **Perianal Crohn's Disease** Evidence-based management approaches for complex cases.
- **Functional GI Disorders vs. Active IBD** Diagnostic distinctions and clinical implications.
- **Intestinal Ultrasound** Expanding role in clinical decision-making and disease monitoring.
- **Malnutrition & Feeding Tube Management** Best practices for nutritional support and long-term care.
- **GI Dysmotility** Evaluation and treatment strategies for motility disorders.
- **Pancreatobiliary Disorders** Updates in diagnosis and therapeutic approaches.
- **Liver Disease Progression** Clinical markers and management of chronic liver conditions.
- **Hepatitis B & Hepatocellular Carcinoma** Latest advancements in care, surveillance, and treatment.

### WHY ATTEND?

Gain actionable insights from top specialists, engage in multidisciplinary dialogue, and leave equipped to improve outcomes for patients with complex GI conditions.

### WHO SHOULD ATTEND

This course is designed for practicing physicians, fellows, residents, nurses, physician assistants, nurse practitioners, and other healthcare professionals in gastroenterology, internal medicine, family practice, and gastrointestinal surgery.

### WHAT PAST ATTENDEES ARE SAYING

#### Presenter Feedback

- "All speakers were highly knowledgeable and engaging."
- "Each presenter delivered informative and impactful content."
- "The talk on feeding tubes gave the most insightful and memorable presentation."

#### Impact on Clinical Practice

- "I now feel more confident educating patients on colitis diets and the importance of hepatitis B vaccination."
- "I gained a deeper understanding of long-term management strategies for Celiac disease and improved my knowledge of pain therapy in chronic pancreatitis."
- "I will initiate more discussions about nutritional tube types prior to placement to improve tolerance outcomes. I also plan to continue using EGD as the standard diagnostic tool for adult Celiac disease and apply targeted dietary strategies for patients with IBD."

### EDUCATIONAL OBJECTIVES

After completing this educational activity, the participant will be able to do the following:

- Evaluate evidence-based strategies for managing perianal Crohn's disease, including medical, surgical, and multidisciplinary approaches.
- Differentiate functional gastrointestinal disorders from active IBD and design patient-centered management plans.
- Assess the role of intestinal ultrasound in diagnosis, monitoring, and treatment response compared with other imaging modalities.
- Recognize malnutrition in clinical practice and troubleshoot common feeding tube issues.
- Elicit differential causes and management of dysmotility in the GI patient.
- Identify when hepatitis B can be treated, and when it is ok to wait.
- Review pathophysiology of fatty liver and ways to prevent its progression.
- Discuss disorders of pancreatobiliary processes.
- Review clinical management of pancreatobiliary disorders.
