

The Case Based Management of Mitral and Tricuspid Valve Disease 2026
December 4-5, 2026 | JW Marriott Essex House, New York, NY

Dear Potential Exhibitor:

On behalf of Activity Directors, Lars G. Svensson, MD, PhD; A. Marc Gillinov, MD; Milind Desai, MD, MBA and Brian Griffin, MD, of Cleveland Clinic's Heart, Vascular, and Thoracic Institute, we invite you to exhibit during **The Case Based Management of Mitral and Tricuspid Valve Disease 2026**. This in-person CME symposium will be held at the JW Marriott Essex House in New York City on December 4-5, 2026. We anticipate 75 participants and faculty.

This comprehensive program brings together experts in structural heart disease, imaging, electrophysiology, and interventional cardiology to explore the evolving landscape of mitral and tricuspid valve management. Through a blend of state-of-the-art lectures and case-based discussions, participants will examine the complex interplay between valvular pathology and cardiac arrhythmias, review cutting-edge transcatheter and surgical therapies, and deepen their understanding of advanced conditions such as ischemic MR, torrential TR, and HOCM-related mitral disease.

This course is intended for cardiothoracic surgeons, cardiologists, interventional cardiologists, internists, nurses, physician assistants, and all health care professionals involved in the evaluation, diagnosis, and management of patients with mitral and/or tricuspid valve disease.

There are two exhibit levels available – Platinum (\$7500) and Gold (\$5000). Payment is for exhibit space only. Multiple supporters have been invited to exhibit. The exhibit area is separate from the educational space.
