FACULTY DISCLOSURE: The Cleveland Clinic Center for Continuing Education has implemented a policy to comply with the current Accreditation Council for Continuing Medical Education Standards for Integrity and Independence requiring mitigation of all faculty conflicts of interest. Faculty declaring a relevant financial relationship will be identified in the activity syllabus.

OVERVIEW

We're proud to present a spectacular educational forum designed to provide the latest information on a wide variety of neuroscience topics. This activity is intended for nurses, nurse practitioners, clinical nurse specialists, physician assistants, occupational therapists, physical therapists and speech therapists.

LEARNING OBJECTIVES

After completing this activity, participants will be able to do the following:

- » Recognize common neurological symptoms in various neurological diseases, and treatment options through lectures and case-based learning.
- » Identify both standards of care and innovations in the management of specific

neurological diseases, symptoms and patient populations.

- » Discuss the role of functional medicine in neurological disorders.
- » Describe the role of rehabilitation in the recovery process of patients with neurological disease and injury.
- » Describe how multidisciplinary care is crucial to short- and long-term goals of patient management and how early intervention can help in achieving successful outcomes.
