

Rhythm Pharmaceuticals

invites you to a Disease Education Program

Key Clinical Characteristics of Rare Melanocortin-4 Receptor Pathway Diseases

PLEASE JOIN US!

PRESENTED BY

Suzanne Cuda, MD, FOMA, FAAP, DABOM
Medical Director and President

Pediatrics, Adolescent Medicine, Obesity Medicine
Alamo City Healthy Kids and Families
San Antonio, TX

Date: September 22, 2023

Time: 12:15 PM ET

Location: InterContinental Hotel, Cleveland, OH
Ballroom C

PROGRAM OBJECTIVES

- Introduce rare melanocortin-4 receptor (MC4R) pathway diseases
- Discuss clinical characteristics of some rare MC4R pathway diseases, including the key features of early-onset severe obesity and hyperphagia
- Describe how hyperphagia is different from other overeating behaviors and disorders
- Discuss the role of genetic testing in rare genetic diseases of obesity
