The Sporting Foot & Ankle: Assessment, Management and Treatment of Common Foot and Ankle Injuries in Sports

June 6 – 7, 2015
Cleveland Clinic Canada
Brookfield Place 181 Bay Street, Suite 3000
Toronto, Ontario
M5J 2T3

You won’t want to miss this workshop!
Expert faculty will share their extensive knowledge and experience working with elite professional athletes. Attend and learn how to manage elite athlete expectations and the importance of providing an accurate diagnosis and rehabilitation plan. You will have the opportunity to learn techniques used on elite professional athletes around the world.

The course will consist of both theoretical and interactive practical hands-on workshops, giving you a chance to practice techniques.

Key Topics
- Anatomy of the Foot and Lower Leg
- Gait Biomechanics
- Kinetic Chain Function
- Common Foot and Ankle Injuries in Sport
- Systematic Assessment Protocol for Foot and Ankle Conditions
- Clinical Reasoning Skills for Foot and Ankle Conditions
- Managing Elite Athletes
- Specific Practical Treatment Techniques Including Manual Therapy, Taping, Dry Needling, and Exercise Prescription
- Blister Management as Used in Elite Professional Tennis
- Prevention Strategies to Reduce the Incidence of Foot and Ankle Injuries

Who Should Attend?
This two-day course is designed for physical therapists, osteopaths, chiropractors, athletic trainers, massage therapists, and strength and conditioning specialists working in the field of sports medicine.

Led by:

Luke Fuller, BSc, PT, BSc (Clin. Sci), MHS(Osteo), MPhysio, CSCS
Physiotherapist & Osteopath
Cleveland Clinic Canada
Toronto, Ontario

Luke Fuller is a physiotherapist, osteopath, and strength and conditioning specialist from Australia. Mr. Fuller travels internationally consulting with the ATP World Tour of Men’s Professional Tennis. He has extensive experience treating all musculoskeletal and sports injuries, but has a particular interest in the shoulder, ankle and knee. His holistic treatment approach is largely hands-on manual techniques, with the addition of dry needling and exercise prescription. Mr. Fuller has worked with a professional Australian Rules football team, Ladies Professional Golf Association, and elite sprinters.

Clay Sniteman, PT, ATC
Owner
Sundance Physical Therapy
Farr West, UT

Clay Sniteman is an internationally acclaimed physical therapist and athletic trainer specializing in manual therapies of severe injuries and the creation of personalized innovative exercise regimes for elite athletics. Mr. Sniteman is a Medical Director who tours with the Association of Tennis Professionals, covering all the major tournaments including the US Open and Wimbledon. He has served as the PT/ATC for US Olympic Team, US World Championships, Chicago Sledgehockey Team, and for celebrity athletes. He is an international lecturer on biomechanics and published author for the US Figure Skating magazine.
