

Addressing Substance Use Disorder in Healthcare

Join us for an evening with Chris Hart as he shares his insightful and powerful journey from honors graduate with 25 years' experience in retail pharmacy, addiction, and recovery, along with 20 years in the world of academia, teaching "Chemical Dependency and the Pharmacist" to healthcare professionals.

Gain a deeper understanding of addiction as he highlights the genetic risks, and the unique challenges faced by those who work in health care. Chris Hart emphasizes the importance of viewing addiction as a disease, not a moral failing.

Chris also captivates audiences nationwide as a living historian and storyteller, performing in community theaters, murder mystery groups, and one-man shows throughout Ohio, often depicting ordinary people from history.

Chris Hart has received accolades, like the Lifetime Commitment and Achievement Award from the University of Findlay College of Pharmacy and serves on the ADAMHS Board of Directors in Tuscarawas County, Ohio.

When: November 7, 2024
